

Hello,

My name is Tom King and I think we should work together.

My ultimate goal is to obtain a position in an energetic environment that will foster my artistic and interpersonal skills and allow me to further professional career.

Experience

Blackstone Media– Senior Software Engineer

2015 – 2016

Joined a team of creatives to build and develop systems that allow clients to manage their content through web applications. Also responsible for front-end components that reflect these interactions.

DRE Medical – Senior Interactive Director

2012 – 2015

Completely redesigned the DRE Medical website that houses over 160,000 products. I also worked on various marketing materials ranging from print ads to packaging to trade show booths.

iContact – Senior Designer, Senior UI/UX Consultant

2010 – 2011

Worked with a team of 12 visual designers, usability testers, user interface designers, and technical writers in the strategic, visual, and interactive redesign of iContact.com, including the core product application and marketing sites.

Texas A&M University (TAMU) – Artist/Programmer, Project Assistant Manager

2008 – 2010

- Assisted in the development and re-design of the College of Architecture (CARC) websites
- Acted as a lead designer and art director for the CARC Global Research Symposium style and layout redesign

Hello,

My name is Tom King and I think we should work together.
